## Dry Laser-Imager

### Konica Dry Pro 873

The DRYPRO 873 dry laser imager is the newest printer of Konica Minolta. This new printer is fast, small, user-friendly, quiet, eco-friendly and prints high quality. It delivers excellent productivity, boasting an unparalleled time to first print of 50 seconds (180sheets/h) and support of five film sizes - from 14X17 in. to 8X10 in. The new optical unit and the newly developed film SD-QM enables mammography printing at high resolution(43,75µm) and with a maximum density of 4.0.

#### WORLD'S FASTEST FIRST PRINTING WITH MAMMOGRAPHY QUALITY

Time to first print, a major speed and productivity parameter, has been greatly improved to a short 50 seconds, total through output 180sheets/h. High resolution printing of 43,75 µm and a maximum density of 4.0.

#### FIVE FILM SIZES AND THREE TRAYS (2 STANDARD)

Two trays and five film sizes are available (14x17in., 14x14 in., 11x14 in., 10x12 in., and 8x10 in.,) And with installing an additional film supply tray, three film sizes can be used at the same time, for example, 14x17 in. and 11x14 in., or 14x17 in. and 8x10 in.. Print mammography with the new SD-QM film 8x10 in. and 10x12 in.
